

RO-81 Crystallizer

Achieve a natural glow and increase scratch resistance on polished marble, granite & terrazzo surfaces.

Functions:

For use to crystallize natural and polished artificial stone surfaces (marble, terrazzo, hydraulic mosaic). For use with rotary machine which helps to achieve the ideal conditions of temperature and pressure. Its special formulation gives this type of flooring a spectacular shine.

Advantage:

- Natural shine.
- Long life.
- Increased resistance to traffic.

Features:

- Acid
 - Ph: 3.5
 - Density: 1,08 Kg/L
 - Performance: About 30-50 m² / L.
- NOTE: Performances are merely indicative. Actual results may vary.

Precautions:

- During application avoid leaving areas without ventilation in order for the liquid to dry.
- ALWAYS CARRY OUT A TEST ON A SMALL HIDDEN AREA BEFORE FULL APPLICATION!

Instructions:

1. Pour approximately 4-5 caps of product on the surface to be treated
2. Place the steel wool disc on to the Rubilim rotary machine and power to a high speed
3. Run the machine over the product area approximately 1-2 m² at a time and work on until preferred brightness is achieved
4. Repeat the process on each area and so on until whole floor is complete
5. Do not wet or walk on the surface for at least 8 hours
